

TCM Forklift Parts

TCM Forklift Parts - In the international industry of material handling, lift trucks play an important role for transporting industrial goods. First innovated as industrial vehicles in the 1930s in America, lift trucks gained recognition after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these machines spread globally.

Initially started as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation with the business. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly manufactures various models of industrial forklifts with over 50 years of accumulated technology and expertise, making their products recognized and used all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading company.
