Doosan Infracore America is the fastest developing forklift and lift truck company in the North American market, thanks to its outstanding level of product performance and their persistently high level of buyer support and service given to all Doosan Infracore Forklift clients. The U.S. forklift division located in Cleveland has a skilled team experienced in Product Sales, Purchasing, Marketing, Logistical and Technical Support.

Initially the home-based forklift market in Korea was an open import enterprise. Korea Machinery Co. Ltd. began in 1960, to import fully assembled forklifts as part of a domestic machinery expansion project. Product sales of these products were originally targeted to state-run companies, large scale corporations, and the military. This eventually led to a merger with Daewoo Heavy Industries Ltd. In 1976, the Forklift Division commenced business operations throughout Korea to service and sell this heavy equipment. By 1978, a lift truck production plant was successfully completed. Continuous technical instruction grew to become the new focus for enhancing quality and product development.

Domestic forklift business for Daewoo started in 1967 and grew to an astonishing 90% market share in Korea. By the 1980's, Daewoo's sophisticated technological advancements combined with sales success placed them in a situation of significant expansion of their forklift business.

In 1981, Caterpillar Industrial Inc. of the United States, proposed a joint enterprise project to counter act competitive pressures in the US materials handling market. This project drastically expanded Daewoo's forklift sales. Construction was finished in 1984 to facilitate a contemporary plant which helped establish the business for the fabrication of high added-value products suited for export. In 1993, the corporation had a global sales system and started exporting versions they had established through in-house technology, as an sovereign brand. Certifications were then acquired from CE of Europe, UL of the United States and ISO 14001 and ISO 9001, securing expansion opportunities into international markets.
