

Electrical Parts for Forklifts

Forklift Electrical Parts - Forklifts may be specifically labeled to be utilized in dangerous places. A labeled forklift denotes the design has met the minimum standards of ANSI/UL 558 meant for engine powered trucks or ANSI/UL 583 used for electric forklifts for the type of label put.

Applications for marked trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance carrier and Fire Marshall for additional info about the approved uses of industrial powered forklifts in your application.

If the specific forklift satisfies the outlined criteria, labels could be put. A labeled forklift will show the type of designation located on the nameplate and will have a properly corresponding label attached.
