

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 particular components fabricated for 20 exclusive brands of forklifts and automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark has a exceptional Parts Supply team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very amazing intercontinental support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark has a uncompromising goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants for the reason that this system is extremely economical and permits minimal use of resources. Established to ensure maximum proficiency, this system is designed to find and acknowledge the most effective ways for manufacturing facility management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing expenses. The contemporary value engineering program combines modern product growth and offers superior customer support and service within the industry.
